Question

"Affordable and Clean Energy" is the United Nations' Sustainable Development Goal 7.

Greenhouse gases are not released during the generation of electricity from clean energy sources like solar, wind, and hydroelectric power. Green projects can cut carbon emissions and alleviate climate change by switching from fossil fuels to these cleaner alternatives.

Select any one option from the below given options and make the drawing based on your selection keeping in mind this UN SDG No. 7:

Create and colour a vision of a **Cleaner Planet**.

or

Paint a scene depicting someone breathing in **Clean Air**.
